ASSMC President Announces Plans For Coming Year

Extension of Past Activities Is Promised

Not only a continuation of last year's successful activities in the field of social, cultural and educational activities, but an extension of all of these marked the student body plans for this coming year as revealed by Lawrence Mana, president of the ASSMC.

Highlights of the coming year will be the celebration of the Diamond Jubilee of Saint Mary's College and the preparation for representation at the World's Fair of 1939, both of which will be worked in conjunction with the new publicity bureau under the direction of Havelock Hunter.

The appointment of William Simon as faculty advisor in charge of dramatics and debating is a move which will insure the continuation of last year's successful dramatic production and the infusion of new spirit into the debating teams to make them truly representative of Saint Mary's College.

Plans have already been outlined in these two fields and work will commence in the very near future.

Campus Clubs to Be Studied

A definite attempt will be made under the control of the Executive Council to increase the club activities for the coming year. An investigation will be undertaken to determine which organizations have added to the extra-curricular life of the college and which have been dormant and ineffective for years and the reasons for their dormancy.

The student magazine, The Brick Pile, under the editorship of Robert Mark is scheduled for its first campus appearance of the fall semester early in September. Three publications are scheduled for this semester and continued publication for the coming year has already been arranged.

(Continued on Page 5)

Annual Brawl To Be Held Friday

Frosh-Soph Tussle Scheduled On Agnon Field

The annual freshman-sophomore brawl, in which the brow-beaten frosh finally get a chance to avenge themselves on their tormentors, will take place next Friday afternoon on Agnon Field.

Featured as always will be foot races, sack races, three-legged races, races, and a tug-o-war between the two classes. Crowning event will be the ever-popular sack battle.

A full athletic program for the morning has ben tentatively planned, but as yet no official approval has been given.

The affair will be under the supervision of the Block SM society.

Date for the annual freshman Welcome Dance, sponsored by the sophomores as an introduction for the first year men to social life at Saint Mary's, has been announced by Soph president Bill Fitzgerald to be September 17.

No locale or orchestra has been definitely decided on as yet. A meeting of the committee is sched-

Father Diego Guest Of Brother Albert

Celebrating his twenty-fifth year in the priesthood by touring northern California, Father Juan de Diego of Los Angeles archdiocese was the guest of Brother Albert during the past week.

At present Father Diego is chaplain for the Brothers at Cathedral High School of Los Angeles. For the past eleven years he has been stationed in various Spanish speaking parishes in Los Angeles.

The visiting priest was born in Spain near Bilbao, scene of much fighting in the civil war now going on in that country. He has been able to furnish local questioners with authoritative information on the progress of the war, and expressed an opinion that the Franco led forces would win the war.

Father Bowling Will Take Post in South

Reverend Benjamin F. Bowling, C. S. P., student chaplain at Saint Mary's College for nine years, has left the campus for Newman Hall at the University of California at Los Angeles, where he will take a post as chaplain.

During his nine years on the Moraga campus Father Bowling produced many innovations in student religious activities. Notable among his projects was the furtherance of the Student Loan Fund. He will be succeeded here by Father Manning.

During the summer months Father Bowling was stationed at the Church of Saint Paul the Apostle, at 10750 Ohio Avenue, West Los Angeles. He plans to commence his work at Newman Hall upon the date of registration at the southern campus.

Instructor Wins Doctor's Degree

Earns Three Degrees In Seven Years

Brother Alfred, who at the age of thirty was this year appointed new dean of the school of science, last week completed his work at the University of California for his Ph. D. degree in physics when his doctoral dissertation was approved by university authorities.

One of the few men to achieve the distinction of obtaining A. B. and M. A. degrees in mathematics and a Ph. D. in physics in the space of seven years, Brother Alfred further distinguished himself by maintaining a straight "A" average during his entire university career. He has also been elected to membership in Phi Beta Kappa, national honor society.

Title of the thesis which won the degree is "The Hyperfine Structure Intensity Measurements in Mn. I."

Thesis

Because the thesis deals with such deep physical facts and theories as the quantum theory of energy, atomic and nuclear structure and spin, and atomic energy levels, any explanation of it in non-technical terms is hardly possible.

Important result of the whole thing was that by constructing a special spectroscopic apparatus, Brother Alfred was actually able to analyze the different levels of energy in the manganese atom and furnish a new proof to the physical world of the previously determined value for the mechanical spin of the nucleus of this atom.

Band Holds First Practice on Monday

Beginning preparations for the coming football season, the college band will hold its first practice of the current semester next Monday night at the Lincoln School in Oakland.

The band this year as in the past will be under the direction of Joe McTigue, manager of the organization since its beginning ten years ago, and Howard Tressel, conductor of the musical aggregation.

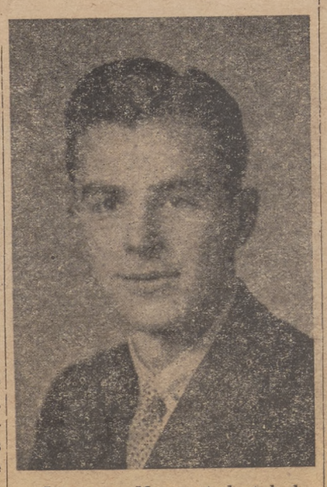
McTigue said this week that he has made many plans for the band this year, but that he has not as yet worked them out to a point where he can divulge their identity. He remarked that he felt sure that with weekly practices, the band will be ready to furnish the fans with a good show by the time of the California game late next month.

Vacancies in Band

As in the past, there will be vacancies in the band for new students in the college, and McTigue requests all students interested in playing in the group to be present at the rehearsal next Monday night. If any student is unable to attend this first practice, he should contact the manager as son as possible.

The repertoire of the band, it was indicated, will be somewhat different from last seasons. The best of last year's music will be retained and many additions will be made so that a well-rounded program will be effected.

Prexy



Lawrence Mana, student body president, who outlines his plans for the coming year in this issue. (See col. 1)

Twelve Students Win Competition

High School Students Given Scholarships

Twelve of the high school students who won scholarships to Saint Mary's by passing high in competitive examinations given last May have accepted and have registered in the recorder's office this week.

In all thirty-two scholarships were offered free to high school students all over the state, the examinations being comprehensive of all high school studies. Tests were given in four cities in the state, each centrally placed in its district.

The names of the students who accepted the scholarships, along with the cities in which they live, the number of years for which their scholarship are good, and the high schools they attended, follow:

Peter Crowley, Crockett, 3 yr., St. Vincent's High Vallejo; James Murphy, Oakland, 2 yr.; Lloyd Gallardo, Oakland, 1 yr.; Edmund James Murphy, 1 yr.; Paul Garcia DeAlva, Oakland, 1 yr.; Eugene Leo Gallagher, Oakland, 1 yr.; all from Saint Mary's College High School.

Max Koch, Fresno, 1 yr.; John P. McCabe, 3 yr.; William Egan, 2 yr.; Robert F. Bazzanella, 4 yr., all from Sacred Heart in San Francisco; Burton J. Atwood, Stockton Main High; John Ryan, Los Angeles, 4 yr., Saint Agnes High.

Sales Campaign For 1938 Gael is Begun

Work on the 1938 Gael has started with the mapping out of a sales campaign, according to John Sullivan, elected last spring by the Class of 1939 to edit the annual. Sullivan announced that several innovations will be made in the sales tactics of this year's book; notably an effort to sell as many Gaels off the campus as possible, thus increasing financial returns for the project as well as enhancing the reputation of the college to outsiders.

To date three members have been appointed to the staff of the Gael, whose names will be divulged upon the appointment of a full staff.

Collections of first installments on the annual were started Tuesday night by Editor Sullivan, assisted by Bill Kirkham. The installment plan on the annual necessitates a student to pay fifty cents down payment in order to have a Gael printed for himself, and thereafter to pay the remaining balance due either by installments, or in a lump sum, to suit individual convenience.

Former Student In Shanghai War Zone

Reverend Wilfred LeSage, S. J., a former student of Saint Mary's College, has sent a cablegram to Brother Bede Edward informing him that he is in the middle of the war zone in China. Father LeSage, with seven other Jesuit priests, is stationed at Gonzaga College in Shanghai; he expressed in the cablegram his intentions of remaining in China and declares that he and his colleagues are comparatively safe.

Sophomores Head Honor Roll Again

Freshmen Follow With Ten Students

Last year's sophomore class again took first place in the number of students placing on the first honor roll for last semester, it was learned from the recorder's office this week.

With fourteen students from the second year class making the list with an average of 2.5 or better, the sophs were closely followed by the freshman class, with ten men on honor roll. Juniors and seniors tied for third place with seven each.

Seniors

Those whose grade point averages for the spring semester were 2.5 or better are: Seniors: Frank Salmon, Frank Martin, Brother Victor, Samuel Miller, John Hassler, John Soares, Victor Strub.

Juniors

Juniors: James G. Brady, Lynn Hull, John Reilley, Edward McMahon, Richard Moore, Brother Virgil, Wyman Riley.

Sophomores

Sophmores: Joseph Donnelly, William Glackin, Brother Lawrence, John Sullivan, Brother John, Robert Moran, Brother Bartholomew, Boyd Judd, Albert Monge, Algeo Brill, Brother Michael, John Williams, Brother Daniel, William Kirkham.

(Continued on Page 5)

Head Yell Leader Announces Plans

Stunts Planned For Big Games

Plans for the fall semester activities of the rejuvenated rally committee were announced late this week by head yell leader Edward La Berge. LaBerge said that he and his assistant, Dick Moore, have planned many novel stunts for the big games of the coming year.

The yell king promised that there would be stunts at every major game, stunts that would be adaptable to the small Gael rooting section and yet be impressive enough to surprise the crowds gathered at the games.

Among other innovations announced by LaBerge was the idea of a short rally to be held on the campus before each game. The rallies would be held immediately after lunch, either in the dining hall or in the quadrangle in front of the chapel.

Both the head yell leader and his aide, Moore, voiced a plea for full co-operation from the student body in the matter of attendance at rallies and the observance of regulations at athletic contests.

Hard Workers Wanted

Applications for membership on the rally committee will be taken soon. Those desiring positions on the body should contact LaBerge at once.

He promised that the rally committee would be a rejuvenated body that would turn out as a unit for each game on the schedule, and that it would carry out its duties in an energetic fashion, in contrast to some of the lethargic groups of past years. Once again the rally committee will insist that those sitting in the rooting section wear white shirts and rooter's caps.

Assistant Yell Leader Needed

LaBerge asked that candidates for the post of assistant yell leader, preferably juniors, contact him at once so that they may learn the yells before the season opener on September 25.

He added that the post is most desirous because the one who is chosen will automatically become yell leader next year since he and Moore will graduate.

OFFICIAL
Office of the President

Study cards must be approved by the Recorder's Office and filed today. A fee of one dollar will be charged for the filing of study cards after 4:30 p.m. today.

Welcomes

Brother Albert, president of the college, who welcomes new and old students to Saint Mary's College. Brother Albert, who recently celebrated his thirty-sixth birthday, is still the youngest college president in the United States. (See editorial page.)

Registration Is Up to Past Year

First Student from Moraga Registers

With the number of new and old students so far registered nearly equal to the registration figures for last year at the same time, registration this year is expected to be slightly higher by the time the deadline is reached on September 1.

No definite figures could be obtained this week from the office of the recorder, but final count is expected to be made public by the end of next week.

Twenty-five students have registered as transfers from junior colleges, it was announced.

New Student from Moraga

Most noteworthy member of the new group from a geographical standpoint is one William James Whiteman, freshman, who hails from the village of Moraga. This marks the first time in history that anyone from that village has registered at the college which has made Moraga a famous name.

New students have registered in the last week from many a state

(Continued on Page 5)

Coach, Managers Meet on Debating

Simon, Kirkham, Smyth Outline Forensic Activities

Forensic activities for Saint Mary's College for the coming year were partially planned out last Thursday night when William Simon, Debate Coach and Instructor in Public Speaking together with student forensic managers Bill Kirkham and Herschel Smyth, held a meeting.

Simon, member of last year's graduating class, was appointed during the summer to act as debate coach for the coming year. As a student at Saint Mary's, Simon actively engaged in forensic activities and is well acquainted with the art of public argumentation.

Bill Kirkham, elected last fall by the Alpha Phi Gamma Upsilon, campus honor society and debating sponsors, to succeed Carl Schuck as manager, will have charge of scheduling and tour correspondence, while Herschel Smythe, appointed last April by the society as co-manager, will handle the freshman teams and assist Kirkham with the intercollegiate forensic relations. Smythe will also be in charge of finances and transportation for traveling teams.

"Freshmen who would like to debate are urged to sign up as soon as possible," Smythe stated. "In that way we hope to have a large freshman turnout and insure an active schedule."

Kirkham reported that he contacted several colleges during summer months for debates but that, as yet, no definite dates appear on the fall schedule.

Brother Patrick Ill In Oakland Hospital

The recurrence of a leg injury suffered about six years ago has necessitated Brother Patrick, Dean of Resident Students to spend the past week in Providence Hospital, Oakland.

In 1931, while the Brother was driving from Saint Mary's to the Brothers' summer camp at Moscow, on the Russian River, his car collided with another; as a result of the accident Brother Patrick's leg was broken. Due to a complication the fracture failed to properly heal, and has caused intermittent trouble ever since. Last year Brother Patrick was in the hospital for several days, due to the old injury.

He is feeling better now and is expected back on the campus to resume his duties of room-registration today.

Faculty Meeting Held Wednesday

Brother Albert Makes Plans for Year

The first faculty meeting of the year was held Wednesday at 12:30 when Brother Albert, president of the college, met with members of the teaching staff to outline plans for the coming year.

Brother Albert opened the meeting by welcoming the new members to the faculty. Reminding the staff that they had commenced a year which would probably go down as a crucial year in the history of the college, he emphasized the need for co-operation on the part of both faculty and students.

Commenting further, he thanked the members of the faculty for the characteristic loyalty which they showed, for their willingness, and for the interest which they showed at all times.

He also stressed the point of this being the Diamond Jubilee year of the college, and emphasized the need for unity and activity in the ranks of faculty and students.

President Optimistic

"It is the duty of the faculty," Brother Albert stated, "to inspire the students with the type of activity which will advertise the college and the work we are doing here in a worthy and representative manner." The keynote of his address was optimism.

Plans as formulated at present call for each faculty member to engage in some form of activity, promote some project, and in general, contribute to the activity on the campus.

Committee to be Formed

Further plans include the formation of a committee composed of faculty and alumni whose duty it will be to handle the program for the Diamond Jubilee year.

"This work," the president explained, "will be a work of co-ordination and integration." Commenting upon changes made in the faculty, and with a few further explanations, Brother Albert closed the conference.

NOTICE!

There will be a meeting of the Collegian staff Monday at 12:20 in G110.

Anyone desiring to work on the Collegian during the semester is asked to be present.

Faculty Changes Increase Number Of Instructors

All Schools Enlarged By Additions To Faculty

New faces greeted old students returning to the campus this week as the result of several faculty changes made during the vacation by Brother Albert, president of the school.

With improvement of the general excellence of the schools of Economics and BusinessAdministration and English as his principal aim, Brother Albert has added six new men to the faculty, most of them from universities and schools in the bay area.

New faces in the school of economics include those of Eliot J. Swan, for the past five years assistant professor of statistics at the University of California, and Brother Jerome, formerly with Saint Mary's high school in Berkeley, who recently received his M. A. from the state university.

New Statistics Instructor

Swan succeeds in the department of statistics Brother Alfred, last year named to be new dean of the school of science. Brother Alfred will devote himself solely to his new duties as dean and to teaching courses in physics and mathematics.

Brother Jerome, well known to many students of the college, will continue his graduate work at California to receive his Ph. D.

New faces in the school of arts and letters are those of Brother James, formerly principal of Cathedral high school in Los Angeles, and Brother Cyprian, from Saint Peter's Boys' High in San Francisco.

Brother Julian Leaves

Brother James will replace Brother Julian as dean and recorder, and will give general education

(Continued on Page 5)

Scholarship Given By Navy Chaplain

Establishment of a four-year non resident scholarship for an outstanding graduate of a Catholic high school was announced today by Brother Albert, president of Saint Mary's College.

The offer of the scholarship, which was effective with the opening of college Monday, was made by Rev. Eugene Edward McDonald, U. S. Navy chaplain retired. It is founded in memory of Rev. Alexander P. Doyle, C. S. P., a Saint Mary's graduate of the class of 1875, who died in 1927.

Visiting Spanish Priest Says Insurgent Victory Imminent

A prediction that the civil war in Spain would soon be ended by a smashing victory for the forces of General Franco was made here by Father Juan de Diego, a native of Spain who is on the campus as the guest of Brother Albert.

It is the belief of Father Diego that a victory for the insurgents would bring about the return of justice and peace and the virtues that flow from them which in turn are fundamental principles of Catholicism.

Tells of Torture

Reports that the leftist government was allowing a return of formal religion were vigorously denied by the visiting clergyman. Father Diego said, "More than 20,000 churches have been destroyed, 40 per cent of the priests in Red territory have been murdered; in some places such as Barcelona and Toledo the toll ran as high as 80 per cent."

Father Diego stated that the most revolting cruelty was practiced by the leftist supporters in their efforts to suppress all outward manifestations of religion. Officially it is known that more than 100,000 persons have been put to death because they maintained their religious beliefs.

In numerous cases victims were tortured before being put to death, many types of torture being employed by the frenzied anarchists.

Fight for Civilization

The Spanish priest likens Franco's army to the men of early Spain who fought to prevent the barbarians from overrunning Spain, and thereby saving all Europe from invasion.

He believes that a victory for the insurgents would mean the halting of the Red wave that threatens to engulf all of Europe

(Continued on Page 5)

JIMMY UNDERHILL, VETERAN MENTOR, RESIGNS POSITION

EX-SANTA CLARA CAGE MENTOR PROBABLY WILL RECEIVE THE APPOINTMENT AS HEAD COACH

Underhill Resigned to Accept A Position At Santa Rosa High School; Hickey Goes to California Aggies

RESIGNS

JIM UNDERHILL - FRESHMAN COACH

Jimmy Underhill, Saint Mary's basketball coach, resigned from his cage post according to an official report released Wednesday morning.

Underhill's resignation probably will bring about the appointment of Harlan Dykes, former hardwood coach at Santa Clara, as head basketball mentor.

His successors for cage and grid positions probably will be announced Thursday. Dykes probably will receive the appointment with Mal Fiese, famed punting backfield man of two years ago as his chief rival.

For the freshman football post, Eddie Erdelatz and Herc Fletcher, both of gridiron fame, will be the chief candidates.

Underhill resigned to accept a position at the Santa Rosa high school as head football and basketball coach. At Santa Rosa he replaces Fred Hickey, now assistant coach of the California Aggies at Davis.

Underhill graduated from St. Mary's in 1927 and gave a helping hand in 1926 to the Gael's first undefeated turf eleven. Two years ago he came to the Moraga institution as successor to Vince McNally.

Last year his powerful cage five defeated both Santa Clara and San Francisco University to win the hardwood crown. This was the first time both fives had been defeated in the same year in a decade.

STUB ALLISON'S ELEVEN RATED FOR ROSE BOWL

Bill Bettencourt Predicts Two Defeats

By Bill Bettencourt
(Collegian Sports Editor)

UNIVERSITY OF CALIFORNIA, Berkeley.—Extra! Located here in Strawberry Canyon is the "Suicide Squad" of Pacific Coast football, Stub Allison's California Bears.

"Suicide Squad" because it's do or die for Allison and his gridders this year. Once again the B'ars are rated as a pre-season cinch to go to the Rose Bowl.

No one dares to deny that Allison has the finest material on the Coast. Don't let any pessimist cries on the part of pro-California journalists fool you.

True, California has lost a half-dozen men. All of them, we will admit, were bright prospects. However, no Cal fan has any reason to cry over Wednesday's sign-up. Because the sign-up definitely marked California as THE team to lick.

Will Lose Two

We predict California won't lose more than two games this season. Saint Mary's has the best opportunity to turn back the ears of the naughty B'ars.

Look at Allison's Sign-Up:

Lettermen first:

ENDS—Sparks, Dolman, Bennett, Schwartz, Johnston.

TACKLES—Stoll, deVarona, Pollack.

GUARDS — Stockton, Evans, Hanford.

CENTER—Herwig.

QUARTERBACK—Meek.

LEFT HALFBACKS — Pollack, Bottari.

RIGHT HALFBACKS — Chapman, Thomas.

FULLBACKS — Cotton, Anderson.

Five veterans of last season who didn't earn letters:

ENDS—Callaghan, Thomas.

QUARTERBACKS—Ades, Winterbottom.

RIGHT HALFBACK—Ray.

Gaels Have Nine Games

Only Three Outside Classics

Bears Are First Opponents

Saint Mary's varsity eleven this year will play nine games, six of which will be home tilts. The three outside games will be played with Loyola in Los Angeles, Pacific in Stockton, and Fordham in New York. The varsity schedule follows:

Date	Opponent	Place
Sat., Sept. 25	California	at Berkeley
Sun., Oct. 3	Gonzaga	at San Francisco
Sat., Oct. 9	Nevada	at San Francisco
Sun., Oct. 17	Loyola	at Los Angeles
Sat., Oct. 23	Idaho	at San Francisco
Sat., Oct. 30	Pacific	at Stockton
Sun., Nov. 7	U.S.F.	at San Francisco
Sun., Nov. 14	Santa Clara	at San Francisco
Sat., Nov. 20	Fordham	at New York

Strutting majestically across the finish line, as shown in the picture above, Dizzy, pet racing rooster of C. E. Shaw of Gig Harbor, Wash., wins fourth annual 100-yard rooster race of Gig Harbor Rooster Racing Association in the fast time of 16¾ seconds. Shaw is believed to be the only man raising and training roosters for racing.

MADIGAN TO PIN WINNING HOPES ON SOPHS

Fifty Freshmen Sign Up For First Gridiron Workout

First Practice Will Start Next Month At Moraga Institution; Gael Babies To Have "Beef" Trust Eleven

By LEO HAGGERTY

When football practice officially opens next month for the frosh the old familiar crunch of head against knee will be heard throughout the Moraga valley.

Big, well-muscled frosh gridders will turn out in all colors to welcome back King Football. Last Monday fifty-one signed, but by the time first practice rolls around, over 75 will be in uniform.

The freshmen turnout will be the largest squad since 1932, while the quality will be a grade A product. All in all, the Gael babies will be a "beef trust" with every gridder topping the scale at 190 or over.

Of all the gridders at the Moraga home, over ten are All-City ranking. Five All-San Francisco turf stars have cast their hat with the Gaels; four All-Los Angeles, two All-East Bay, five All-Sacramento and eight from out of State.

San Francisco gridders who will shine on the battle field for the Gaels include Mike Klotovich, brilliant Mission halfback, of the many Klotoviches; Joe McEntarffer, ace Saint Ignatius fullback; Joe McGrath, Sacred Heart guard; Dick Mesak, Mission tackle; John Consiglieri, Balboa end; Art Anderson, Poly end, and Dave Nichols, Lick-Wilmerding fullback.

At the top of the pile from the East Bay are Wally Wilkman of Berkeley High, 6 foot 3 and 230 pounds, a nice little guy, and Jack Tandy, 190-pound end from Richmond.

The four Los Angeles turf men are headed by Roy Ruddell of Belmont High, 220-pound tackle.

GAEL GRIDDERS INVADE CHICAGO FOR TURF GAME

Gerry Conlee, brilliant center for the Saint Mary's eleven last year, and Jerry Dennerlein, tackle on the 1936 team, have arrived at Chicago to play in the annual All-Star Professional grid game which will be held in Soldiers Field on September 1st.

This classic is one of the greatest athletic shows on earth. Small events do not attract 90,000 to 100,000 fans. All the $3.30 and $2.20 seats have been sold for some time and these seats are between the goal lines.

Among other Coasters that will engage in battle are Starcevich, outstanding All-American guard from Washington; Bassi, Santa Clara right guard; and Byron Haines and Jimmy Cain, both from Jimmy Phelan's Rose Bowl team.

Six Sophs to Win Regular Berths on Gael Varsity Eleven; Tom O'Laughlin Will Be Gridiron Threat

It again looks like—Senor Moraga is going to have a team made up mostly of Sophomores. "Slip" Madigan has an uncanny ability of producing winning teams when confronted with green men.

Madigan says at least five and probably six sophs will win regular berths. Among the most promising sophs are Lavine Bettencourt, who plays left end; Norman MacPhail at right end; Marius Peterson at left tackle; Nick Katzmeyer and Milo Millicivich at center; Frankie Freitas and Al Lingua for the left halfback position.

Other sophs who are conceded a chance are Bob Brusatti, right end; Nielson and Samson at right tackle; Glen Sinnott and Fern Skoubye at quarterback; Whitey Smith and Frank Maderios at fullback; Jack Sims at right half, and Leo Englert, Bill Thomas, and Tom O'Laughlin at left half.

The man to watch is Tom O'Laughlin, brother of the famous Ned. Tom was all-Junior College selection at Pasadena. He had numerous offers to play for Southern California, Stanford and California but refused them all. He is expected to do great things for the "Galloping Gaels."

Gael Gossip

By BILL BETTENCOURT
(Sports Editor, the Collegian)

SAN LEANDRO, the Cherry City, Calif.—While we're testing syrup in a local cannery in order to grab a few more shillings before coming back (without the wind) to the "little White Academic City," you lucky sun-kissed Moraga collegians already are awaiting the afternoon of Saturday, September 25, when Slip Madigan will take our gridiron varsity to Berkeley for a "practice" game with Stub Allison's Bears.

STUB ALLISON

No doubt, even at this early date, you already know the city turfmen rule favorites to roll over our Valley Gallopers. During spring practice the oft-repeated cries of "Cal's the team to beat" again were broadcast far and wide—even by journalists on the Bear sheet.

Tsh! Tsh! Such notes of optimism.

The other day, the caretaker of the sports section of Oakland's Tribune, the only ex-Cohn-vict employed in journalism, "Heartless Art" Cohn, confessed his favorite club would take the Madigans.

Predicted the heartless one:

"If the Allisons knock off the Madigans in the Saint Mary's gigantic—AS I EXPECT THEY WILL—Berkeley will not be big enough to accommodate the mobs for the next four Saturdays..... The Bears have the BEST MATERIAL, the BEST SCHEDULE, and for my dough the BEST COACH on the Pacific Coast. If they are not playing in the Rose Bowl on New Year's Day, it will be a miscarriage of justice, or something."

Not that it makes any difference, but our opinions do not run parallel with those of Mr. Cohn.

* * *

Great Frosh Grid Eleven? Prove It!

Here in San Leandro the boys tell us that Saint Mary's will have her greatest freshman football team in history. Which is great news—IF true!

But we're not getting fooled again. To be called "great," the yearlings will be forced to go out on the battlefields and earn that distinction for themselves.

They will be given an excellent opportunity this fall because they tackle one of the best schedules ever signed for a Moraga yearling squad.

And here a word should be injected regarding the proposed tilt between the freshmen of Loyola and Saint Marys. Our congratulations to Madigan. This game is making more firm the friendly rivalry which exists between the two colleges.....so much so that within a very few years the Saint Mary's-Loyola tilt will be one of the biggest and most colorful contests to be witnessed annually by L. A. fans.

* * *

Will Injuns, Bears Be Downed Again?

Until the early part of November of last season, Saint Mary's and Santa Clara figuratively had the Canny Conference teams on pins and needles.....simply because the Broncs trounced Tiny Thornhill's Stanford Injuns and the Gaels drubbed the Silver Bears.

Greatly relieved were the exclusive and proud "Little Eight" institutions when U. S. F., Fordham, and Marquette halted Gael aspirations and T. C. U. did the same to Buck Shaw's Missionites.

Gael Turf Prospect Stricken at Fresno

Lesley Stevens, 18, captain and outstanding center of the Coalinga High School gridiron eleven last year, is confined in the Fresno hospital with infantile paralysis, it was announced last week by Dr. Hyman Ginsburg, hospital superintendent.

Stevens, one of the best known high school turf men in the San Joaquin Valley, was all-county center and was the key man to help Coalinga win all but one game during 1935 and 1936. He had planned to enter Saint Mary's College this week.

Can you imagine how the "Brilliant Little Eight" squads will feel if Santa Clara and Saint Mary's repeat on September 25? Stranger things have happened before..... and still do occur.

* * *

Get S. M. Sticker for Your Car!

During the Fourth of July holiday period we jumped into our Ford coupe early in the morning of the third and headed for the seashore and mountains of Old Santa Cruz.

A few minutes after our arrival there, we parked in front of the Santa Cruz Catholic church and attended Mass. While walking down the steps of the church after Mass, we noticed the car alongside of our Ford bore a Saint Mary's sticker.

STUB ALLISON

We waited a few moments to steal a glance at the driver of the car. Sure enough, we knew him—a fellow Moragan. Thanks to the sticker on the windshield, we two enjoyed the holidays together.

All of which is only one minor reason why it isn't a very bad suggestion for you to put a Gael sticker on your car. The more cars with Saint Mary's stickers, the better.

Once again it's football season. Every week we'll be traveling to and from grid battles. Put a sticker on your car and let those who care know you're a Gael—and proud of it!

(Get ready for the mob, Louie ....and don't forget, we want a cut of the receipts for this ad.)

Called By Death

Death, as it must come to all men, came last week to Owen Merrick, 53, veteran sports writer for the San Francisco News.

Merrick, a familiar figure in Bay region sports events, was a member of the News sports department for the past eight years. Prior to that time he had been connected with the old Bulletin sports staff and was associate sports editor of the Journal of Commerce.

His majors in the sports world were track, golf and football. He also covered four Olympic games, including the latest Olympics which were held in Berlin last year.

After serving several years on the Journal of Commerce, he returned to the Bay region to work on the old Bulletin. He graduated from the University of Michigan, where he was a member of the football squad.

He is survived by two brothers, William, who was present at his death, and Carl, both of Portland.

Moraga Eleven Wins Six Games in 1936

Last season's Gael gridiron varsity won six games, lost three, and tied one. The biggest upset came in the second game on the Moraga slate when the Madiganmen trounced the University of California, 10 to 0, thereby avenging the 10 to 0 defeat the Bears handed the Gaels in 1935.

Other results of last season follow:

SAINT MARY'S

13	Temple	7
26	Gonzaga	13
19	Loyola	7
34	Pacific	0
0	San Francisco U.	0
6	Fordham	7
6	Marquette	20
0	Santa Clara	19

BRONCO HURT

Phil Daugherty, outstanding Santa Clara University football center, will be lost to the Bronco grid machine for six weeks when he broke his little finger of the left hand Tuesday night in a softball battle at San Jose.

Bronco turf officials announced Daugherty probably will miss at least two turf games.

CHICO FOOTBALL STAR NAMED FOR COACHING POST

M. Kordick Receives Job at Los Angeles High School

Ten Saint Mary's men landed coaching positions during the summer vacation, it was revealed by the athletic office this week. Saint Mary's thus maintains its outstanding record of annually sending numerous former athletes into the field of coaching athletics.

Of the ten, three played on last year's varsity. Gerry Conlee, "iron man" of the 1936 eleven, has signed with Sacred Heart in the San Francisco A. A. A. prep league, one of the best in the state, although it is not affiliated with the C. I. F.

Les Groux, a halfback last season, now commands the Christian Brothers athletes in Sacramento. The third athlete of last year to grab a coaching post is Marty Kordick, who begins his new duties this fall at Cathedral high school in Los Angeles.

Others who recevied berths are Noel Bonelli at Weed; Jimmy Flynn assistant to Relles at Sacramento high in football and baseball and headman in basketball; Len Callan at Albany high, formerly at Saint Vincents, Vallejo; "Cowboy" Smith at Regis high, a post declined by Kelly Kellogg; Jack Baat at Sutter City; Elwood "China" Lang at Yreka, and Bill McKinney at Visalia.

Student Body Cards To Be Issued All Next Week

★

Every student of Saint Mary's is expected to purchase his student body card as soon as possible.

The usual fee of $1.00 for the card will be charged.

WHY YOU SHOULD GET YOUR CARD SOON

1—It makes you a bona fide member of the student body.

2—It entitles you to exercise your preferred seat option.

3—It entitles you to participate in intra-mural athletics.

4—It entitles you to your book of free tickets for the Saint Mary's games.

5—It entitles you to the student body newspaper.

6—It enables the student body to carry on a program of cultural, social and athletic avtivities for YOU.

You can show your enthusiasm for Saint Mary's College by your response to the appeal to purchase your Student Body Card AS SOON AS POSSIBLE.

LIBRARY ST. MARY'S COLLEGE

Alumnus Named As Commissioner

Sylvester Andriano Appointed By Mayor Rossi

Selected to fill a vacancy caused by the resignation of a member of the San Francisco Police Commission, Sylvester Andriano, prominent alumnus of the college, was last month named by Mayor Rossi to a position on that body.

Andriano's appointment culminates his steady climb to prominence started during his attendance here at the college, and later at Hastings Law School.

After receiving his degree at the law school, the new police head began practice in San Francisco, his native city, and rose rapidly to the point where he became legal advisor to the Italian Consul General. Success then came to him even more rapidly and he soon became legal advisor to the Italian Chamber of Commerce, the Italian Hospital, the Salesian Fathers, and the Union Sportiva Italiana.

Well Known

Andriano is well known in San Francisco and surrounding Catholic circles for his work in behalf of Catholic Action and his participation in the work of such organizations as the Knights of Columbus and the Young Men's Institute. Two years ago the new commissioner was awarded the Moraga Crest, highest award of the college, at the commencement exercises in recognition of his work of furthering the European Tradition of Culture on the Pacific Coast.

Supervisor

A few years ago the late Governor Rolph, then mayor of San Francisco, named Andriano to the position of Supervisor to fill the unexpired term of John B. Badaracco who had passed away. After the completion of the term, Andriano refused to stand for election saying he did not care for public office, but during his short stay in office he rose to the position of chairman of the board's police committee, a position that did much to prepare him for his present work.

Biblicist Makes Plans for Book

Brother Claudius Prepares History of Bible

Back on the campus after several weeks of intense biblical research work, Brother Claudius, college biblicist, announced this week that the material gathered will be used in compiling a history of the transmission of the texts of the Bible from earliest times to the present day.

The transmission is through the Old Syriac, the Hebrew, Greek, Latin, and all of the modern languages.

During the summer Brother Claudius spent three months in research in the Henry E. Huntington Library in San Marino, California, where he made a special study of original Bible texts. Chief among these were thirteen German Bibles, all of which were printed before 1500, the Italian Bible printed in 1478, and such famous English translations as the Tyndale Bible, the Coverdale editions, Geneva Bible, and the Bishops Bible.

Extends Study

Brother Claudius also made an extensive study of the Latin texts from which the Rheims-Douay Roman Catholic English version of the Bible was made, and the King James Bible, which is the Protestant version.

According to the local biblicist, one of his most interesting texts was the "Biblia Pauperum," or the "Poor Man's Bible," which is a picture Bible with only condensed Latin text. This Bible was printed in 1470 and there are very few copies now in existence and are difficult to obtain for study.

Two Year Preparation

Brother Claudius began preparations for his book more than two years ago when he made a detailed page-by-page study of the Gutenburg Bible, the first book ever printed with movable type. He also has made intensive linguistic preparations for his work and now has a thorough knowledge of Hebrew, Greek, Latin, Italian, French and German.

The campus biblicist has not as yet begun the actual writing of his book, but expects to begin in the near future when he feels that he has gathered all accessible material

Brother Leo Tells Of New Lecture Series

Brother Leo announced this week that he will resume his lecture series at the University of California Extension Division for the fall semester in the near future.

The noted campus lecturer and author discontinued his lectures at the end of the 1936 fall semester at the Berkeley institution in order to fulfill many other engagements throughout the bay region and other parts of the state.

Brother Leo's new series will be called "Shakespeare and Modern Life," and will deal with the author's dramas in their relation to problems and conditions distinctive with present day life and modern conditions.

Instructor Has Book Published

Dr. A. S. Campbell, Biologist, Writes Second Book

Printing of the second book by Professor A. S. Campbell of the biology department of Saint Mary's was begun last Friday by the Carnegie Institute at Washington, D.C.

The book, titled "Oceanic Tintinnoina," is the result of three years of research into the existence and varieties of these tiny, one-celled microscopic animals. It embodies 765 pages, including one color plate and 146 text figures.

In it Dr. Campbell makes formal announcement of his discovery of two new genera, fourteen new species, and four new sub-families of tintinnoina.

Result of Expedition

The work is the result of a marine expedition by the Carnegie Institute to the North Atlantic and North and South Pacific which covered 27,000 miles of ocean. During the trip physical and chemical records were made twice a day, and biological material was collected from every possible point.

Samples of this biological material were placed in a thousand bottles, from which they were identified, classified and collated by Dr. Campbell, who is one of the world's foremost authorities on sea life of this kind.

From this research Dr. Campbell was able to put into his new book a complete description of 312 species and 45 genera of tintinnoina.

First Book on Press

Dr. Campbell's first book, written in conjunction with Dr. C. A. Kofoid of the University of California, and entitled "Report of Tintinnoina of the Eastern Tropical Pacific," is rapidly nearing completion at the Harvard University Press, where it has been going through the printing process for the past year.

Bourne, Jenkins Star In S. F. Minstrel Show

A graduate and two members of the present senior class held leading roles last week in a minstrel show for the benefit of Saint Peter's Parish, San Francisco. Frank Salmon, '37, acted as master of ceremonies; Warren Jenkins, president of the senior class, and Bill Bourne, varsity catcher, handled the major part of the dialogue.

Twenty-two parish glee club members produced the show entitled, "The Lazy Moon Minstrels," before packed houses on two consecutive evenings. Warren Jenkins was the leading soloist of the group; at the final performance he received three encores for a song and dance act.

OFFICIAL
School of Economics and Business Administration

All students registered in the school are urged to watch carefully the bulletin board of the school in Dante Hall.

Both freshmen and sophomores will take the course in Economics 20 (Economic Geography) this year. The course will be offered both semesters. Both juniors and sophomores will take the course in 60a-60b (Principles of Accounting.) For juniors, this course replaces the course formerly numbered Economics 160a-160b.

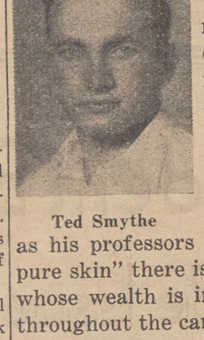
A special meeting of all new and old students in the School of Economics and Business Administration will be held on Friday, August 27, at 10:10 a.m., in room D201 Dante Hall. It is requested that all students attend. Students are excused from all other exercises.

Famed Priest's Original Cell Restored at Carmel

In connection with the move to canonize Father Junipero Serra, famed founder of California missions, authorities at Carmel Mission have restored his original cell as closely as possible to the way it looked at the time of Father Serra's death, 153 years ago. The cell will be dedicated Aug. 29. In the picture above Father Michael D. O'Connell, present pastor of the mission, examines his famous predecessor's crucifix. The stone with which Father Serra beat himself on the chest, the candle he used to burn himself and the chain used to lash his body in demonstrating mortification of the flesh to the early-day Indians as well as the hard cot on which he died can be seen in their oiginal state.

Senior Sketches

Out of the West has come a gay Lochinvar and into the hearts of our Senior Class has come a personage cherished by all, particularly his most intimate friends. Ted Smythe, pardon, Theodore has come to Saint Mary's from the Mormon plains of Utah to disprove the generally accepted notion that all the people in Utah are Mormons. Yes, there are Catholics in Utah, Ted maintains, besides a lass by the name of McChrystal, himself, and the few others who have trickled to Saint Mary's in recent years.



Ted Smythe

In a general way, Ted has been outstanding among the "Utahans." His constant appearance on the rolls of Saint Mary's honor students will attest to his scholastic capabilities, but intimate glimpses of him as his professors know him reveal that beneath his "ivory pure skin" there is not only a heart of gold but a personality whose wealth is inestimable and whose effect has been felt throughout the campus in the past three years.

Big Stuff

According to a most intimate source, Ted is quite a personage in his home town, holding the very important position of Secretary to the Commissioner of Parks, which just goes to show that even in such a city as Salt Lake that a man with the "stuff" will always get to the top. Incidentally, he has held that position for the last three summers.

Ted is one of the Arts & Letters students who is seeking to get a good background in the liberal arts as the most satisfactory preparation for whatever he undertakes after graduation.

But no matter to what field he decides to devote his life, you may rest assured that before long he will be in one of the important positions, for Ted's nature is such that he cannot be repressed for long.

It seems rather early to wish him the best of luck on his graduation; still it is but one short year away; one year that will be but a fleeting moment. So Ted, though your Senior year is just commencing, and you have one year still in College, here's a toast from "old Erin" to you, and may yours be a most successful life. Whatever you do, though, never forget the glorious times you spent at Saint Mary's, for those should be your most cherished memories.

Off-Campus Knight Hurt in Cycle Crash

Jack Wallace, of Walnut Creek, the only off-campus member of the local council of Knights of Columbus, met with a motorcycle accident during the summer months, from which he sustained painful, but not serious injuries.

Wallace was traveling from the Crossroads to Berkeley when his motorcycle skidded on the loose gravel of the new road, causing him to crash into a boulder which had been loosened and had rolled to the side of the highway. He was thrown from his motorcycle and the machine was badly damaged. The accident occurred east of the entrance to the new Broadway low-level tunnel.

HIGHLIGHTS of SCIENCE

By BILL GLACKIN

SUMMER SCIENCE

Science and scientists, like everything else, have been more or less lazing in the heat this summer. Outside of a host of scientific and mutually educational conventions, during which fellow scholars swapped facts, figures, specimens, and discoveries like a mass gathering of boy scouts, there has been little to disturb the summer rest of America's men of science.

Were it not for the fact that there were certain notable exceptions to this general condition, the reader might well ask what excuse we have for discussing summer science at all. But science did have its moments this summer—

There was, for instance, that moment last June high above the mountains of Peru when Major Albert W. Stevens, who hobbies in stratosphere ballooning, went 25,000 feet above the earth's surface in a Pan-American Grace Airliner and took fifteen snapshots and 150 feet of motion pictures of the total eclipse of the sun.

People had taken pictures of the eclipsed sun before, but always from lower altitudes. Their pictures had shown vivid coronal streamers of fire shooting out irregularly from the sun's sides.

Major Stevens had better visibility. His pictures, made public only last week, showed a startling new feature of the sun: a vast, circular —or globular—corona, as deep as the sun's diameter (some 864,000 miles), in which the old irregular streams were a brilliant core.

And so astronomers learned that the sun, too, has an atmosphere—not an ordinary atmosphere, but one composed probably of ionized, highly agitated gases. And another scientific question of long standing was spectacularly settled.

Then there was another moment in mid-June in the New York Botanical Garden when a specimen of the world's largest flower—known to botany as Amorphophallus Titanum and native to Sumatra—bloomed after standing inert for five years.

When bloomed, the central core of the spadix stood 6 feet 2½ inches high, making the whole plant 8 feet 5 inches tall. It was the sixth time in history that this flower has bloomed outside its native jungle.

Most interesting feature from a popular standpoint was the giant plant's outstanding characteristic, a nauseating carrion stench which forced all but a few brave botanists, photographers and newshawks outside the glass greenhouse doors.

There were other moments too—most of them, however, less spectacular to the lay reader. With the reopening of the academic year most of the country's leading men of science in pedagogical fields will return to their work. From now on discoveries will come thick—and, as the saying goes, fast.

Clayton C. Lane On Federal Job

Fred Halterman Accepts Post At Santa Barbara State

Former members of the faculty of the school of economics and business administration have found positions as far flung as Washington, D. C. and the Hawaiian Islands, it was revealed in a survey held recently.

Mr. Clayton C. Lane, who was at one time professor of foreign trade, is now acting chief of the division of foreign tariffs of the United States Department of Commerce in Washington.

Dr. Fred Halterman, assistant professor of economics at Saint Mary's in 1934, and later at Washington State College last year accepted an appointment as assistant professor of economics at Santa Barbara State College.

Dr. Harold Hoflich, from 1932 to 1933 associate professor of economics, is at present assistant professor of economics at the University of Hawaii.

Dr. Gregory Silvermaster, who formerly was the head of the department of economics, is in Washington with the Federal government.

Dr. Robert M. Carr, who served as assistant professor of economics in 1934 is still in the Trade Agreements Section of the Department of State in Washington, D. C.

Bain at Kansas

More recently with the college, Dr. Frank Bain, assistant professor of economics from 1935 to 1937, resigned recently and accepted an appointment at the University of Kansas.

Formerly a student in economics, Virgil Salvera recently has been appointed assistant professor at the University of Minnesota.

Department Head Returns From Trip

Brother Cornelius Back From Alaskan Trip

Returning from an extensive summer vacation trip which took him far into Alaska, Brother Cornelius, head of the college Art department, placed on exhibit a pictorial record of his travels in the form of twenty-eight pastels. The exhibit, open to the public, may be seen in the Keith Art Gallery, room 111, Galileo Hall.

The journey, sponsored by Mrs. Mary McHenry Keith, widow of the famed Pacific Coast artist, Albert Bender, Mrs. Alexander Morrison, as well as other Keith enthusiasts, was made in connection with the book now being written by Brother Cornelius on the "Life and Art of Keith."

His travels covering Alaska by ship, train and airplane and then by foot, Brother Cornelius had an opportunity to visit the scenes that were inspiration for some of Keith's greatest paintings. In like manner the art instructor recorded graphically in pastel chalks some of Alaska's most famous natural beauty spots, fourteen of the pictures presenting views to be seen on the passage from Seatle to Skagway. Puget Sound at evening, the Olympics, Ocean Fall and famous Taku all were treated in a manner highly suggestive of Keith's best work, marked chiefly by its misty aspect, a style emphasized by the famous painter.

Near Skagway Brother Cornelius found inspiration for six other scenes depicting nearby points of interest and the city itself as it may be seen at dusk. Dead Horse Gulch, Chilcoot Pass, and the famous trail worn by a prospector's feet during the gold rush of 1898 provide the setting for one of Brother Cornelius' best works.

The return trip from Vancouver, British Columbia, was made by rail with many scenic side trips on foot to Mount Baker, Mount Rainier, Mount Hood, and to the Harriman Lodge on Pelican Bay, Klamath Lake. Castle Crags, a favorite painting ground for Keith, and to Red Bluff were made.

Nine paintings were completed at these points of interest, three of which are of Crater Lake in Oregon.

Brother Cornelius reports that much valuable data on Keith has been gathered and that he hopes to complete the first writing of his biography, to be entitled "The Life and Art of Keith," in 1938, at which time the one-hundredth anniversary of Keith's birth will be celebrated. The Alaskan journey completed the seventh year of research and study to provide background and material for the book.

Faculty Changes Increase Number Of Instructors

All Schools Enlarged By Additions To Faculty

(Continued from Page 1)

courses. Brother Julian has been transferred to the southern high school, where he will assume the duties left by Brother James. Brother Cyprian, possessor of A. B. and M. A. degrees from the University of California, will replace Brother Bernard as English instructor and moderator of publications. Brother Bernard has been moved to Saint Peter's Boys' High in San Francisco.

Simon Named

Additional change in the arts and letters set-up is the appointment of William Simon, honors graduate and president of last year's Senior class, as instructor in vocal expression and faculty moderator of dramatics and debating.

New face in the school of science is that of Brother Raphael, who comes to Saint Mary's from Loyola University at New Orleans, where he achieved both B. S. and M. S. degrees. Brother Raphael will teach chemistry.

New Chaplain

Newest face to most students, because the man he replaces has been so long familiar to Saint Mary's students, is that of Father Manning, who comes to the college from Holy Name Parish, San Francisco, where he was assistant pastor as well as instructor in Religion at both Sacred Heart and St. Ignatius Highs.

Father Bowling is now in charge of Newman Hall at the University of California at Los Angeles.

Other important changes include the replacement of former comptroller James E. Butler by William J. Milliken, a graduate of the University of California and associated with the treasurer's office here for the past two years; the absence of Father Turco, who has been granted a year's leave of absence by Brother Albert; the resignation of Professor Frank C. Bain, former instructor of economics here, who has accepted a position at the University of Kansas; the appointment of Thomas Twomey, '35, as assistant to the Recorder, and of Brother Bernardine as director of Freshmen students in Aquinas Hall.

Novitiate Sends Ten New Students

With the entrance of ten new student Brothers from the novitiate at Mount La Salle in Napa county, the total number enrolled in the scholasticate has been set at twenty.

There are besides the freshmen Brothers, six sophomore and four junior Brothers. The new Brothers now studying at the college are Brother Brendan, Brother Damian, Brother Albert, Brother George, Brother Francis, Brother Peter, Brother Vincent, Brother Dominic, Brother Jerome, and Brother Lewis.

Last year saw the graduation of ten Brothers, who upon completion of their studies here were sent to teach at the various Christian Brothers' High Schools scattered throughout the state.

Brother Bartholomew, Brother Charles, and Brother Martin are now engaged in teaching at Christian Brothers' High School in Sacramento, while Brother Daniel and Brother Edmund are faculty members at Saint Mary's College High School of Berekely.

Brother Michael and Brother Lucius are at Sacred Heart High School of San Francisco, and Brother Lawrence is teaching at Saint Peter's High of the same city. To Cathedral High School of Los Angeles went Brother Joseph and Brother Virgil.

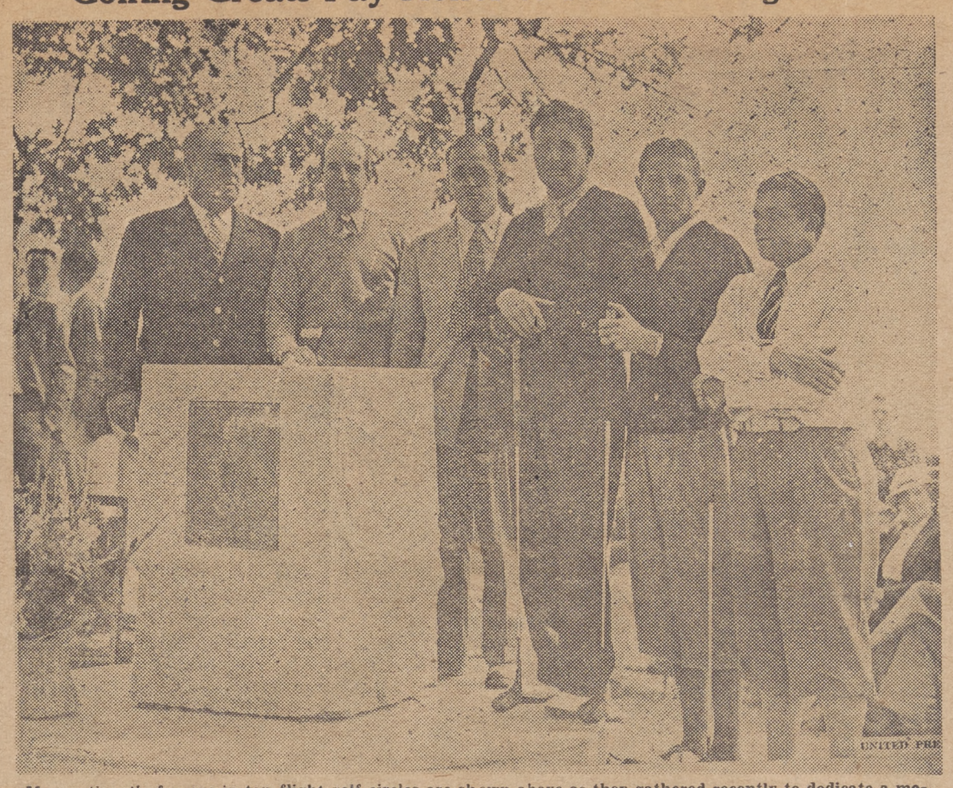
Golfing Greats Pay Honor to Famous Oregonian



Men nationally famous in top-flight golf circles are shown above as they gathered recently to dedicate a memorial on his home course at Medford, Ore., to the late H. Chandler Egan, former national amateur champion and member of golfdom's hall of fame. Grouped around the memorial, left to right, are D. Scott Chisholm, Harry Cooper, Bobbie Jones, Jimmy Thompson, Horton Smith and Lawson Little.

Third Annual Picnic To Be Held at Napa

The third annual barbecue-picnic for the benefit of the Christian Brothers' Novitiate will be held at Mont La Salle, Napa County, next Sunday, August 29. It is being sponsored by the combined Mothers' Clubs of Sacred Heart College, Saint Mary's High, Christian Brothers High of Sacramento, Saint Peter's High, and Mont La Salle. Brother Edwin of Sacred Heart College is chairman of the affair.

Sophomores Head Honor Roll Again

(Continued from Page 1)

Freshmen

Freshmen: Edward Chilgren, Joseph Carey, Francis Concannon, William Spehar, Thomas Meagher, Brother William, Thomas Heidenreich, Brother Bonaventure, William Henderson, Delmer Paine.

Those who made the second honor roll are:

Seniors

Joseph L. Alioto, Brother Charles, Thomas Passantino, Carl Schuck, Robert Williams, Brother Joseph, Parnell Buscher, Louis Ferry, Ernest Moreno, Harry Zanoni, Cornelio Baca, John H. Booth, Alfred Dennerlein, Thomas McIntosh, William Simon, Lester Groux, Donald Miller, Albert Shine, Elias Welch.

Juniors

Paul Alston, Kenneth Coveney, William Bourne, Lawrence Mana, Lawrence Webber, Warren Jenkins, James Rarig, James E. Walsh, Victor Wilkiemeyer, Anton Boehle, Earl Fleming, John Mylot, James Robertson, Edward Smyth, Lew Baysinger.

Sophomores

William Dooms, Robert Fleitz, Brother Martin, David Olsosn, Paul Johnson, George Carter, Brother Edmund, Alvin Quittman, James Dowd, Harry Hooper, Brother Matthew.

Freshmen

Edward Fleckenstein, Brother Gerard, Brother Alfred, Thomas Feeney, Brother George, Philip Kearney, Peter Lo Bianco, Clifford Rudden, Raymond Syufy, Loren Furtado, Joseph Alston, William C. Miller, Robert Thyken, Brother Raymond, Noel McDermott, James A. Brady, Clifton Rose and Robert Smith.

KNIGHTS PLAN ACTIVE YEAR

Grand Knight Outlines Year's Work for Club

Saint Mary's Council, Knights of Columbus, has mapped out an extensive program of activities for the coming year, according to Vic Wilkiemeyer, newly-elected Grand Knight.

Brother Bede Edward will maintain his post as moderator of the organization.

"This year we plan to have the most active program of events yet staged in the history of the Saint Mary's College Chapter," stated Wilkiemeyer, "the plans which the chapter has consist of numerous on and off-campus innovations in K. C. tactics."

Intercollegiate Meetings

Already steps have been taken to hold regular intercouncil meetings with Dante Council of San Francisco; negotiations are also under way with Berkeley Council for similar meetings. A suggestion was made at a recent committee meeting to the effect that the Knights of Columbus on the campus would profit by holding meetings with sons of Knights who are in the present freshman class with the hope of interesting the latter in the organization.

The development of the Brother Gregory Memorial Library will be one of the primary projects in which the local chapter will interest itself during the coming semester, according to Grand Knight Wilkiemeyer. This library consists of a collection of religious books, pamphlets and documents.

Co-operation with the Society of Saint Vincent de Paul for the furtherance of charitable works will be another aim of the Knights this year. In conjunction with this a Fall and Spring Benefit is planned to aid Saint Mary's Parish in Walnut Creek.

Brother Leo to Give First Lecture Soon

Brother Leo will deliver the first of his lectures of the coming season on Tuesday evening, August 21, 1937, at the Western Women's Club at 609 Sutter Street in San Francisco.

The talk is under the auspices of Stanford Parlor of the Native Sons of the Golden West. This will be the first time in the history of Brother Leo's lectures that he has been sponsored in a talk by a parlor of the Native Sons.

He has chosen as his topic the much-discussed subject, "What is personality?" As is the custom, all seats are reserved. Tickets are one dollar apiece, and may be obtained from the box office of the Western Women's Club.

ASSMC President Announces Plans For Coming Year

(Continued from Page 1)

Intra-mural activity will get under way in the very near future, baseball the first activity scheduled. Full co-operation has been promised to Intra-mural Sports Manager Julian Lyons in whatever additions he plans over last year's program.

In the line of social activities will be the student body's presentation of the annual California Rally-Dance and the new ideas which will be infused to make it successful.

A social year more active than any in a long time is being planned in conjunction with the Bay Region women's colleges.

Plans to be Discussed

All these plans will be discussed at the first Executive Council meeting of the year to be held this coming Wednesday afternon. Newly elected class representatives are asked to be present.

Alumni Notes

ALUMNI HERE AND THERE

Last week Rafael Monzon, '28, returned to Guatemala, Central America, after spending his vacation in the Bay Region. He reports the good news that his former classmate Alfred Buxton is now happily married and settled down in Guatemala City.

Many prominent young almuni are scheduled to take over teaching and coaching positions throughout the state within the next few days.

John Mallarino, '35, has secured a position as teacher in the Martinez Junior High School.

His classmate, Jack Purcell, '35, will teach at Girls' High school in San Francisco.

Elwood Lang is the newly appointed coach at Yreka High School, while Jack Baat will hold down a similar post at Sutter High School. It is also reported that Noel Bonelli will assist his former team mate Jack Danilovich, in developing the football prospects at Weed High School.

Jimmy Underhill, former varsity basketball coach, has forsaken us to assume coaching duties at Santa Rosa Junior College.

Frank Boland, '28, was in town recently on a well earned vacation from his duties as associate editor for the West Publishing Co. in St. Paul, Minn. Frank secured his degree in law from Hastings College of Law after his graduation from Saint Mary's.

LUNCHEON COMMITTEES

President Andrew F. Burke has appointed a committee headed by Louis F. Conlan to arrange for the annual San Francisco Football Luncheon to be held on September 14, at the Elk's Club, 456 Post St.

It is expected that the President will announce the membership of the committee which will be in charge of the East Bay Luncheon within the next few days. This luncheon is to take place on September 13, 1937.

FORDHAM TRIP RAFFLE

With the purpose of arousing interest in the annual football excursion to the Fordham game in New York the Alumni Association is sponsoring a raffle with one all-expense trip as sold by the committee in charge of the "Galloping Gael Special" to the Saint Mary's-Fordham game as the first prize. Several other prizes, consisting of four preferred tickets to each of the following games are also offered:

Saint Mary's-University of Calif.
Saint Mary's-University Gonzaga
Saint Mary's-Loyola University.
Saint Mary's-College of Pacific.
Saint Mary's-University of Idaho.
Saint Mary's-University of S. F.
Saint Mary's-Univ. of Santa Clara.

The drawing for these valuable prizes will take place at the annual Football Luncheon which will be held at the Elk's Club, in San Francisco, on September 14th, at 12:15.

Tickets for the raffle may be secured from the Executive Director, C. Wesley Davis at 941 Monadnock Bldg., 681 Market Street, San Francisco.

Student Brother Ill For Past 3 Months

Brother Timothy John, student Brother in the Upper Division has been seriously ill for the greater part of the summer vacation. In the latter part of May the young Brother was the victim of a sudden and severe attack of pleuresy.. Complications set in, the illness spread to his lungs, and immediately following the lesser sickness a diagnosis of pneumonia was pronounced. For some weeks during the summer Brother John's life was despaired of, but sufficient reserve strength enabled him to withstand the lung disease.

He is now completely out of danger, although still in the college infirmary under the care of Nurse Bond. Brother John will be unable to attend classes during the Fall semester, but intends to resume his studies in January.

Registration—

(Continued from Page 1)

and country unrepresented at Saint Mary's in recent years. Any list of their native cities would have to include such places as Ogden, Utah; Walla Walla, Wash.; Santo Domingo, Ilocos Sur, Philippine Islands; Casper, Wyoming; Anaconda, Montana; Chicago, Illinois; Pocatello, Idaho; Salt Lake City, Utah Klamath Falls, Oregon; Lihue, Kauai, Territory of Hawaii; Trinidad, Colorado; Great Falls, Montana; Rochester, New York; Pueblo, Colorado; Portland, Oregon, Logan, Utah; El Paso, Texas; Vaughn, New Mexico; and Oklahoma City, Oklahoma.

There are, of course, the usual quota of old students re-registering from the states of California, Kansas, North Dakota, Texas, New York, Washington, Oregon, Idaho, Oklahoma, Montana, Wyoming, Nevada, Colorado, Illinois, New Mexico, Arizona, Mississippi, and others, as well as one student from Guam.

Visiting Priest Tells of Revolt

(Continued from Page 1)

if it is not effectively stemmed in the near future.

Discussing the attitude of the Spanish peasantry Father Diego said, "The Spanish peasant class, which forms the big majority of the people, has been on the side of the army right from the very beginning of the uprising; the people have been united with the army and the latter have been really representative of the people in arms."

"Soldiers and peasants fight side by side; sons of the aristocracy fight along with simple peasants. Lawyers, doctors, professional men of all classes are in the trenches with their own employees."

"The civil war has given cohesion to classes that hitherto lived apart, and this union bids fair for the Spain of tomorrow."

Consistent reports that revolt is spreading in the insurgent ranks were scouted by the Spanish padre who declared "time will reveal the mendacity of such statements." The campus visitor labeled the rumors as a newspaper offensive against Franco.

In support of his contention that the Franco followers are loyal to their leader, Father Diego quotes Father Gonzales of the University of Manila.

Speaking in San Francisco recently the Manila educator said, "Franco is the ideal of the real Spain and the nationalist army is thoroughly united with him to the last man."

It was made clear by Father Diego that the Church is not "officially" in favor of one side or the other, because an official declaration would be superfluous.

On one side we have as they themselves have named it, "The Godless Society," and on the other side the Catholics. Father Diego says that the war in Spain is consequently a "Holy War," more so perhaps than any other war in history.

"The Nationalists in Spain are fighting against an avowed godless faction which has attempted to tear out the soul of Spain and destroy ruthlessly that religion which has been the greatest treasure of all true Spaniards for over a thousand years."

President's Message

AS SAINT MARY'S College commences this Autumn Semester, she begins her seventy-fifth consecutive scholastic year. For seventy-five years students have matriculated in our College; and for the past decade their collegiate lives have been lived on the present campus. To you students, new and old, who are to continue with us, I extend a hearty welcome. It is my wish that your college life, here on this Campus, may make for your genuine accomplishments.

To all those who apply themselves to the serious tasks, peculiar to college life—be the college large or small—come the fruits of knowledge to expand the scope of living. But only to the students of a small college come the inspiration and intimate counsel which personal contact with faculty members can give. It is only in the small college that the students can realize that instructors are something more than the animated foot-notes to so many courses. It is only in the small college that the students can observe faculty members living their lives, outside of the classroom, according to the tenets which they teach within.

I hope that you, our present students, may profit as a result of the benefits which our small college offers. It is my sincere wish that Saint Mary's College will help to make you intelligent, cultured and valuable patriots of God and country.

This year we commemorate seventy-five years of successful educational work here in the State of California. The success of our students, and of our Alumni, during these seventy-five years, cause us to look with the hope of achievement to a still more glorious commemoration of our centenary twenty-five years hence.

The prestige of the years cannot be rushed. It is built slowly and securely on firm foundations. Only to the patient and persevering does it bring reward. Saint Mary's College is an example of an institution of learning which has mastered both.

It is with pleasure, therefore, that I welcome you students to Saint Mary's. I extend to you all my best wishes for a fruitful college career.

BROTHER ALBERT,
President of the College

Looking Forward

AS SAINT MARY'S College opens her doors once more, beginning the seventy-fifth year, there is much upon which to reflect. Foolish rumors have been spiked, malicious gossip halted, and calamity howlers have been silenced. Through the efforts of Brother Albert and those working on behalf of the college, confidence has been restored and fears allayed. Few doubted the outcome of the question facing the college last spring—only a few on the outside raised a hue and cry. But the hue and cry is dying now, and the outlook is decidedly bright.

Changes have been made. We say goodbye to some of our instructors, and extend a sincere and hearty welcome to those who join the faculty. It is with deep regret that we see the men with whom we have studied, worked and those who have been our friends leave Saint Mary's. Yet at the same time, we are happy to welcome those who have replaced these men, and we look forward to the same pleasant and worthwhile associations that we enjoyed with the men who are no longer on this campus.

Among those no longer with us on the campus is Father Bowling, chaplain at Saint Mary's ever since its existence in Moraga Valley. Always one of the students' best friends, he did much for the men on this campus. Replacing Father Bowling is Father Manning, already known by the San Franciscans. We extend to Father Manning our sincerest greetings, and our best wishes. We hope that he will enjoy being at Saint Mary's as much as we enjoy having him as our chaplain, counsellor, and friend.

Replacing Brother Julian, who leaves Saint Mary's to head a school in the south, will be Brother James, well known to many students on the campus. We say goodbye to one old friend and welcome another.

To Brother Cyprian, who will be moderator of publications, the Associated Students extend a sincere welcome. With wide experience in his field, he will do much for the Collegian.

And to all new members of the faculty of the college—our best wishes, and it is the hope of every student that the coming year will be as successful, and as pleasant, as those past. Saint Mary's will go on this year, we feel sure, to even greater successes than she has enjoyed in the past, for this year marks the seventy-fifth in progress, the seventy-fifth year that Saint Mary's has been established as a guiding and helping factor, the seventy-fifth year that she has sent young men into the world prepared for life.

Saint Mary's Credo

IT HAS BEEN the tradition in opening editions of the Collegian to print the creed so well-known to Saint Mary's men everywhere—the Saint Mary's Man's Credo, written by Brother Leo.

Freshmen have memorized it, students have followed its high ideals, and graduates know it well. Since it is held so high by the men of Saint Mary's, and since the incoming students could do no better than to learn it by heart, we print the Saint Mary's Man's Credo.

"I believe that the world has an Idea behind it and that my life is more than a merely animal life.

I believe that my biggest and unending business is, according to my ability and my opportunity, to champion the cause of Goodness, Beauty and Truth.

I believe that the things of the spirit are more important than material things and that the man who ignores spiritual values ignores the deepest and truest things in life.

I believe in honesty, not because it is the best policy, but because it is the will of God which ordains that I shall be fair and square with all my fellow creatures.

I believe in art, literature, music, science, philosophy, and all the other forms where in the human mind expresses its aspirations and records its achievements.

I believe in the European tradition of culture whereof I am the heir, and I pledge myself to live as best I may in harmony with its spirit and its aims.

I believe in the sacredness of my duties as an American citizen and honor the flag of my country as the symbol of political liberty.

I believe in whatsoever things are good, whatsoever things are true, whatsoever things are honest.

I believe in Saint Mary's College, Mother of Men, and cherish the years I have been priviliged to spend in her fostering care."

—By Brother Leo.

Moraga Musings

And once again we muse and muse—with little or no results. But it's nice to be back, and to hear all the lads try to outdo each other in the ancient art of ox-tossing....and where did all the freshmen come from....we're willing to bet even money that the yearlings can lick the pants off the sophs.

* * * *

Louie's, strangely enough, is doing a rushing business, especially around 7:30 a.m., 12:30 p.m., and 6:30 p.m. Things seem to be running true to form in one department of the college.

* * * *

Our scouts in Walnut Creek reported that they overheard **Jerry "John D." Seale** calling up Ogden, Utah . . . they stated that the name sounded strangely like **Dorothy** . . . it couldn't be **Bowman**, could it, Jerry?

* * * *

Wilfred "Gobberdygotz" Yost spent the summer in Northern California....he is reported to be in magnificent shape for the coming semester.

* * * *

WHO knows a nice, easy course we can take for three units?

WHAT dark young man worked one week, got canned, and has been crying ever since?

WHERE can the Collegian find somebody that can write something besides his own name?

WHEN will "Satch" Hilken ever gain back ALL that weight he lost this summer?

WHY do profs have to start giving assignments so early in the year?

There'll Come a Day

OUTLOOKS & INSIGHTS

By BROTHER LEO

LITTLE THINGS ARE LITTLE

We have all meditated on the importance of little things; but we have meditated amiss if we have arrived at the erroneous conclusion that little things are more important than big things. The short-sighted philosopher urged us to take care of the pennies and the dollars will take care of themselves; but the worldly wise business man takes care of the millions and so doesn't have to worry about the dollars or the cents. Bacon, in the Novum Organum, sets it down as the vice of little minds to attach too much importance to slight distinctions; and Voltaire very properly remarks of Louis XIV that the Grand Monarch had "that sure mark which distinguishes the second-rate man from the great man; he loved details for their own sake."

Now, Voltaire was not a saint; but neither was he a fool, and in that remark he got down to one of the fundamental truths of human life. Nobody can afford to ignore details; but the little man loves details for the sake of details. The little teacher "just loves" to make out class reports and revels in clerical formulae; the big teacher accepts such duties with good grace, but he does not linger over them; and he heaves a sigh of relief when he is done with them and is able to turn to something that pertains to the breath and finer spirit of teaching and study.

"SWEETNESS AND LIGHT"

Matthew Arnold popularized the phrase, and his admirers may have vulgarized it; not Arnold, but Jonathan Swift, created it. Yes, Swift, whose light was somehow not cheering and whose sweetness was known to few.

The world could do with a little more of both sweetness and light. Arnold's "sweet reasonableness" might help in the settling of industrial disputes and in checking the artful activities of male spinsters in university circles; and plenty of the subjects about which good men wrangle would cease to be difficulties when considered in the light of truth.

"Swift," Father Daly reminds us, "was literally accurate and just when he said that the two noblest things in life are sweetness and light. They are the two things which give to life happiness, dignity and usefulness; just as their opposites, bitterness and darkness, make of life a hideous and tragic story filled with havoc and misery. Holy scripture and the prayers and hymns of the liturgy of the Church are forever reminding us of the sweetness and lgiht accompanying the faithful observance of God's law."

WHOSE OX IS GORED?

Ediphone Voice Writing, an alert and varied publication, offers something worthy of thoughtful consideration:

"When the other fellow is set in his way, he's obstinate; when we are, it is just firmness.

"When the other fellow doesn't like your friends, he's prejudiced; when we don't like his, we are simply showing that we are a good judge of human nature.

"When the other fellow tries to treat someone especially well, he's toadying; when we try the same game, we are using tact.

"When the other fellow picks flaws in things, he's cranky; when we do, we are discriminating.

"When the other fellow says what he thinks, he's spiteful; when we do, we are frank."

Thought for the Week

"Blessed are the sensitive, even though sometimes they suffer. The great poet's soul is an Aeolian harp which vibrates responsive to the faintest spiritual breathings of things; but ordinary souls are like the stiff cordage of ships which make music only when played upon by the strongest blasts."—Hiram Corson, long professor of literature at Cornell.

"Religious education is the great principle of the life of saciety, the only means of diminishing the total of evil and of augmenting the total of good in human life."—Balzac.

"Shall I tell you the secret of the true scholar?" asks Emerson. "It is this: Every man I meet is my master in some point, and in that I learn of him."

The Bystander

By LAWRENCE MANA

The brilliant summer season along San Francisco's gay white way has served to show that when the immortal Shakespeare penned the phrase "ah, the play's the thing," he was but giving birth to another of his sayings generally accepted as truisms.

Commencing with the highly publicized road show production of "Dead End," which if it did nothing more than raise a bit of comment and keep San Franciscans from falling into their regular summer lethargy ably served a purpose, to the impending production of "Room Service," scheduled for the Geary on August 30, the San Francisco theatre season has been the most active in a decade, showing that the legitimate stage is not dying but has been infused with a new spirit.

A highlight of the summer season was the appearance of the Lunts—Alfred Lunt and Lynn Fontanne—in "Idiot's Delight," focusing attention on the European state of but a year ago and now and then striking a moral not of importance and in their new production of "Amphyitron 38" which, though a bit crude is destined for a brilliant season on Broadway after its coast-to-coast tour.

This appearance of the Lunts—the first in so many years and it is to be hoped not the last—gave the Geary house just what was needed to focus the eyes of the San Franciscans "theatrewards." It bids fair to be but the dawn of an invasion by Broadway luminaries to capture the fields which the Lunts and Katherine Cornell have discovered to be fertile. San Francisco's welcome of these outstanding members of the stage was heightened by tremendous ovations and the SRO signs which nightly made their appearance.

Along a different line and no less efficient was the production of "Brother Rat," portraying campus life at VMA (Virginia Military Academy)—campus life so closely resembling that on the Moraga campus that one needed but to close his eyes to recapture a bit of the Saint Mary's atmosphere. With a comparatively unknown but highly capable cast George Abbot's production of "Brother Rat" scored a distinct success greater even than his previous productions of "Three Men on a Horse" and "Boy Meets Girl."

The "Story to be Whispered" now playing at one of the Geary street houses, featuring the return to the stage of Marjorie Rambeau, though a highly pleasing production, contains certain parts which definitely ought to be whispered to save the audience not from embarrassment—theater audiences have ceased to be embarrassed—but, may we say, a mild blush.

Still to be seen is "Room Service."

Collegiana

By HENRY NUETZEL

REFLECTIONS

In trying to fill a column in the manner of Cornelio Baca, who is now seeking fame and fortune elsewhere with the aid of a sheepskin, we find ourselves sorely beset. In the first place, the redhead could do things with words that we never could, and now that touch is sadly lacking. Yes, as we pound this out we find ourselves turning away in shame, sighing heavily. And to Cornelio we can only say, "We had to do it—you know how these first editions are." The ghost walks, Red.

50-50

On the last page of an exam book at Maryland, the following notice was penned: "Dear Prof.: If you can sell any of these answers to a humor magazine, remember that I want my cut."

REASON ENOUGH

Mother—"Harry has been out of college since last June and hasn't found a job yet. Can't you take him into your business?"

Father—"No, but couldn't you use him for a bridge prize at your next party?"

VICIOUS CIRCLE

A college journalist born to blush unseen in the dank air of a college editorial room wrote the following: "The politicians would give the people what they wanted if the people knew what they wanted and the politicians were able to give it to them."

CURIOUS HOBBY

Two hundred New York hockshops have the name and address of a wealthy New York man whose hobby is collecting fraternity pins. When the pawnshop receives a certain pin, the proprietor takes down the pawner's name and address and then turns the information over to the collector. After buying the pin, the collector wraps it up in a $100 bill and sends it to the man who pawned it—one of his frat brothers.

MY! MY!

The following signs were seen on the bulletin board at Carnegie Tech:

"Cheerleader wanted; must be neat, honest and intelligent."

A week later:

"Cheerleader wanted; no qualifications necessary."

CAUSE AND EFFECT

A certain woman's college has been making much of the fact that statistics show that men get mad on an average of six times a week, and women only three. What the darlings don't explain is who makes the men mad.

HELL

Daughter: "I can't marry him, mother; he's an atheist and doesn't believe in hell."

Mother: "Marry him, my dear, and between us we'll convince him that he's wrong."

CULLINGS

According to Dr. Chambers, professor of psychology at Oregon State, students actually lose more hours per days than they study... State Relief has been defined as a pool game with a politician at each pocket...Huron College in Ontario is the smallest college in the world, with a total enrollment of 20.... Princeton students recently voted whiskey their favorite beverage, with milk coming second....The Pledge Log of Annapolis defines an inveterate smoker as one who can shave without getting lather on his cigarette.....Famous last words: "Your jaws generate electricity when you eat, and when dining with the sweet young thing, you may have noticed the charge."....More: "Footprints on the sands of time were never made sitting down."...."Do right and fear no man; don't write and fear no woman."....."Courtship consists of chasing a woman until she catches him."....and the above pulsating proverbs are not original; every last one was culled here and there

SISSIES

What is a sissy? The answer to this pulsating problem is given us in sundry opinions of Boston U. Co-eds. Here are a few: "A man is a sissy if he uses any perfume." "Anything a man uses to slick down his hair makes him look like a sissy." "If the hat is worn on the center of the head, then this individual is a sissy of the old school." "Any man who does not suggest a Dutch Date is automatically a sissy."—Now you know, go and guide yourself accordingly.
